

Georgia Smart Solar System Factory

Does qcells have a solar plant in Dalton Georgia?

[ATLANTA, Oct. 18, 2023]- Qcells, an industry-leading clean energy solutions provider, today announced the successful completion of its Dalton, Georgia, factory expansion. Qcells added 2 gigawatts (GW) of solar capacity to Dalton, bringing the full factory's output to more than 5.1 GW.

What's going on with Georgia's solar industry?

Politics envelops the solar industry. Vice President Kamala Harris visited the plant earlier this year. At the state level, Republican Gov. Brian Kemp has wrestled with Democratic U.S. Sen. Jon Ossoff over political credit for electric vehicle and renewable energy investments flowing to Georgia.

Does qcells have a solar supply chain?

In January 2023, Qcells announced a historic \$2.5 billion investment to expand its Dalton, Georgia, solar factory and build a fully-integrated solar supply chain factory in Cartersville, Georgia. Qcells successfully added 2 GW of solar capacity to its Dalton, Georgia, factory, bringing the full factory's output to more than 5.1 GW.

How many solar modules will qcells produce a year?

The new facility will produce 1.4 gigawatts (GW) of solar modules per year made with Qcells' next-gen PV cells, a high-efficiency tunnel oxide passivated contact technology better known as TOPCon.
