

How much does it cost to replace lithium batteries with battery cabinets

How much does electric car battery replacement cost?

Electric car battery replacement costs outside of warranty typically range from \$5,000 to \$16,000, depending on the pack size and manufacturer, but these out-of-pocket repairs are extremely rare. If you buy a new EV, you will probably never have to think about battery replacement or even battery maintenance.

How much does a lithium ion EV battery cost?

According to the DOE, the cost of a lithium-ion EV battery was 89 percent lower in 2022 than it was in 2008, and this trend is continuing as production volume increases and battery technology advances. Still, even with the drop in costs for EV battery packs, the cost to replace a battery pack could range from around \$7,000 to nearly \$30,000.

Why do EV batteries cost so much?

Make and model: Some EVs use more expensive battery technologies or larger battery packs, which can significantly increase replacement costs. **Battery availability:** If a battery is scarce or must be ordered from the manufacturer, costs can rise due to supply constraints and logistics.

How much does a long range battery replacement cost?

More recently, a Reddit reader added that a Long Range battery replacement (75 kWh) cost them around \$13,000- including labor - in 2023. Another reader gave a similar quote. That still works out to \$173/kWh. However, third party retailers, such as Greentec Auto, offer refurbished OEM packs for \$9,000, which works out to \$120/kWh.

How much does a refurbished battery pack cost?

However, third party retailers, such as Greentec Auto, offer refurbished OEM packs for \$9,000, which works out to \$120/kWh. These packs are warranted for 48 months/50,000 miles. Another third party that refurbishes and replaced packs is re/cell, which offers 250 kWh packs at \$6995 and 340 kWh for \$7495 - \$8999.

Can recycling reduce battery costs?

With lithium used in batteries for high-performance electronic devices and electric vehicles, demand can cause shortages, further driving up the costs. One way companies are looking at reducing battery costs is via recycling.

Depending on power, size, and quality, prices for a replacement car battery range from about \$45 to \$250. Your local dealership, auto parts store or automotive service center can check your ...
